RE: Percolation application A#526608

Dear Mr. Lee,

The percolation application submitted to the Health Department on 3/29/07 has been reviewed. Before percolation testing, a test plan needs to be submitted to our office detailing the proposed change in use from residential to commercial. The proposal needs to include information regarding the maximum occupancy in the home, the number of employees, and the type of facility (assisted living or nursing home) proposed. The plan also needs to include property boundaries, topography, house location, existing well and septic locations, location of accessory structures, and the proposed septic easement with test hole locations. Enclosed with this letter is a list of engineering and surveying firms which can assist you with the plan development.

If you have any questions regarding this matter, please contact me at the above address or by calling (410) 313-4261.

Sincerely,

Sara Fegel, R.S.
