John Kline

Re: Moving Septic Treatment - Police report 10/1/95

I made one error in my fax yesterday. I stated that we asked the seller for three weeks to confirm if the septic easement could be moved. That is the date we proposed to close on the purchase. We asked for thirty days from their acceptance of our offer to confirm if the easement could be moved. They have not accepted the offer yet, but hope we will come to some agreement with them in the next week or so. I look forward to your account comments.

Thank you again for your attention and cooperation.

Sincerely,

Robert A. Clark

Bob Clark

Mr. Jim Kelly - Attorney - Kline:

After meeting with the builder last week, he is confident that the house can be sited on the property without relocating the septic easement. So far so good, we are going with that and do not need to schedule any testing at this time. The picket up the application last week, and will hold ours if he is not added to the future. Thank you very much for your help with this. Bob Clark, CDR, USN
