RE: **Variance Approval**
13025 Linden Church Road
Clarksville, MD 21029

Dear Sir:

The Department of Health has received your variance request dated December 11, 2007 for the above referenced property. This agency will grant **approval** of the variance to waive the required Percolation Certification Plan as required by the *Howard County Code, Subtitle 8, Section 3.805*. The variance has been approved on the basis that the proposed detached garage without plumbing does not increase the wastewater flow from the single family residence and a plan in the file dated March 8, 1979 illustrated a 10,000 square foot area that is not impacted by the proposed building.

Be advised that any future addition may require percolation testing and a Percolation Certification Plan will be required. Any deviations from the site plan submitted with the request will be subject to further review by this Department.

Any questions regarding this decision may be directed to the Well and Septic Program of the Howard County Health Department.

Respectfully,

Michael J. Davis, R.S.
Well and Septic Program Manager
