RE: Septic System Abandonment
Percolation Application #510157
Property ID: Wilet Property -
Long Corner Road
Tax Map: 6 Block: 21 Parcel: 55

Dear Sir:

During the review of the well permit application, this office was reminded that the old well and septic systems need to be abandoned on Parcel A of the Wilet property.

We do have a copy of the well abandonment report from the well driller; but, we do not have a copy of any record of the septic system abandonment.

Please send an update report of any progress or proposed plans to resolve this matter.

Very truly yours,

Brian Baker

RE: Wilets Property
F-99-60
Letter of Recommendation for 60,000 sq. ft. Lots

Dear Mr. Williams :

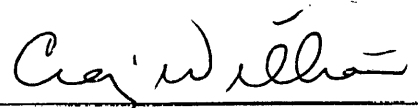

The purpose of this letter is to request a determination that a 60,000 square foot lot area is recommended for the above referenced project. This request is made to allow for alternate house locations and in the event that a larger house footprint is desired without adversely impacting the septic area.

Thank you for your time and consideration. Should you have any questions or comments concerning this matter, please feel free to contact our office.

Very truly yours,
Mildenberg, Boender & Associates, Inc.

Stephanie Demchik, BSLA
Project Manager

The Health Department concurs with the above request.

RE: Percolation Test Results
Application # A510157
Willetts Property
Long Corner Road
Proposed use: Subdivision

Dear Mr. Reuwer:

Percolation testing conducted on June 17th, 22nd, and July 9th 1998, indicated limited satisfactory soil conditions. Shallow depth to rock was encountered in several test locations. Copies of the test results are enclosed.

Further review is contingent upon submission of a percolation certification plan showing contour lines, actual locations and elevations of all excavated test holes and suitable house and well sites. The plan should also include the location of all existing features such as, swales, or existing structures. A note must be included certifying that all wells and septic systems within 100' of the property boundaries have been shown. A proposal to replace the existing septic system is expected prior to recordation.

This should be submitted within sixty (60) days to allow field verification if necessary.

If you have any questions regarding this matter, please feel free to contact me at the address below or by calling 410-313-2640.

Very truly yours,

Glen Savage, R.S.

RE: Percolation Test Results
Application #: A510157
Proposed Use: Subdivision
Property ID: Wilites Property
Long Corner Road
Tax Map 6, Grid 21, Parcel 55

Dear Mr. Reuwer:

Percolation testing conducted on June 17 & 22, 1998 on the above referenced property indicated limited satisfactory soil conditions. The primary limiting factor is shallow depth to rock. It is anticipated that additional testing may be required. Copies of the percolation test results are enclosed.

According to our records test fees were paid for three lots, an additional repair fee (\$25) is due for the existing structure since four lots and/or parcels are proposed.

Further review is contingent upon submission by a registered engineer of a percolation certification plan showing contour lines, actual locations and elevation of all excavated test holes and a suitable house and well site. The plat should also include the location of all existing wells and septic systems on the property as well as the location of any relevant features such as streams, swales or existing structures. A note must be included certifying that all wells and septic systems within 100' of the property boundaries have been shown.

This should be submitted within sixty (60) days to allow field verification if necessary.

If you have any questions regarding this matter, please feel free to contact me at the address below or by calling 410-313-2640.

Very truly yours,

Glen Savage, R.S.

RE: Demolition Permit
Wilets Property, Parcel 'A'
Long Corner Road
Tax Map: 6 Parcel #55

This is to advise that the septic system serving the existing dwelling on the above referenced property was properly abandoned on July 28, 1999, with the Health Department present.

Additionally, the drilled water well serving the existing dwelling was properly abandoned by Michael Barlow Well Drilling on May 10, 1999.

This office hereby recommends release of the demolition permit for the existing structure.

Thank you for your cooperation in this matter.
