Sorry, the address should be Long Corner! Got it mixed up with Benson Branch in my head. - Susan

Subject: File Inquiry Note for complaint at 1241 Long Branch Rd

Dear Kevin and Ryan,

Today around 12:30pm I stopped out at 1241 Long Corner Rd to follow up on a septic complaint that had been called in by Paul (240-676-4872). There was a backhoe and PVC piping present on site, along with a large hole dug next to the right side of the house. I spoke with the owner of the property, Julie Parsons (301-325-1055). She said there was no septic work being done. She said they were installing a basement door in their house that would have a small cement area and be surrounded by a 2 foot retaining wall. She explained that the piping would be used to drain water away from the door. She said she had checked the codes before beginning the work and she didn't think she needed a permit for the work that was being done. I let her know we might contact her to follow up if necessary.

Best,

Susan M. Thomas
